EXPERIENCE

AI Developer Intern 2026 – Present
Fastigo Technology

- Developed the **AstroBaby full-stack application** using React.js, FastAPI, Python, and MongoDB.
- Built **AI-powered applications, chatbots, APIs, and automation workflows** using OpenAI technologies.
- Designed and improved the **Door2fy website UI**, creating responsive and user-friendly interfaces.
- Worked with **Git/GitHub, databases, API integration, debugging, and deployment**.

EDUCATION

B.Tech in Computer Science and Engineering **CGPA: 7.84**
Vellore Institute of Technology, Bhopal 2022 – 2026

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

AI/ML: Generative AI, LLMs, RAG, NLP, Machine Learning, scikit-learn

AI Tools: LangChain, Hugging Face, OpenAI

Backend: FastAPI, MySQL, MongoDB

Frontend: React.js, Vite, HTML, CSS, Tailwind CSS

Tools: Git, GitHub, Pandas, NumPy

PROJECTS

AtliQ Tees – LLM-Powered Business Q&A System Dec 2025
[GitHub Repository](#)

- Built a natural-language Q&A system over MySQL business data using Google Gemini, LangChain, Hugging Face embeddings, and ChromaDB.
- Implemented few-shot prompting and vector search to convert natural-language questions into useful business analytics.
- **Tech:** Python, LangChain, Google Gemini, Hugging Face, MySQL, ChromaDB, Streamlit.

MediBot AI – RAG-Based Medical Chatbot Aug 2025
[GitHub Repository](#)

- Built an LLM-powered RAG chatbot for context-aware responses using medical PDF documents and semantic retrieval.
- Processed documents with LangChain and PyPDF, generated Hugging Face embeddings, and integrated Pinecone for vector search.
- Connected the AI pipeline with Flask APIs to create an end-to-end RAG application.
- **Tech:** Python, Flask, LangChain, OpenAI, Hugging Face, Pinecone, RAG.

AstroBaby – Full-Stack E-Commerce Platform 2026
[Live Website](#)

- Developed a responsive e-commerce platform using React.js, Vite, JavaScript, and Tailwind CSS.
- Built reusable UI components, product and service sections, promotional banners, testimonials, and mobile-responsive layouts.
- Focused on responsive design, API integration, user experience, and scalable frontend architecture.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** – [Credly](#)
- **Generative AI** – [IBM Cognitive Class](#)
- **Generative AI with Azure OpenAI** – [Udemy](#)
- **SQL Programming** – [LinkedIn Learning](#)
