EDUCATION

B.Tech in Computer Science and Engineering (E-Commerce Specialization)

VIT Bhopal University

CGPA: 7.7

Oct 2022 – Oct 2026

Kendriya Vidyalaya Bambolim Camp, Goa

12th Grade – **Percentage: 75%**

2022

Kendriya Vidyalaya Bambolim Camp, Goa

10th Grade – **Percentage: 78.2%**

2020

PROJECTS

LLM Q&A System for AtliQ Tees (Sep 2025)

- Built a natural language Q&A system for business data (MySQL) using Google PaLM LLM, Hugging Face embeddings, LangChain and ChromaDB . Designed the UI in Streamlit and implemented few-shot learning for better query accuracy. Improved data processing efficiency and user experience, automating analytics for store managers.
- **Skills:** LLMs, LangChain, Hugging Face, Google PaLM, MySQL, Streamlit, Vector Search, ChromaDB, NLP.

LLM-Based FAQ Automation System

- Developed an intelligent FAQ chatbot using LangChain, Google PaLM, and Hugging Face embeddings.
- Implemented FAISS vector search with Retrieval-Augmented Generation (RAG) for accurate, context-aware responses.
- Deployed an interactive Streamlit UI for real-time student query resolution.
- Gained end-to-end experience in LLM pipelines, embeddings, vector databases, and deployment.

HR Analytics Dashboard (Power BI)

- Developed an interactive HR analytics dashboard to visualize and analyze employee attrition for a 1,417-employee organization using Power BI, Power Query, and DAX.
- Identified key attrition trends by age group, gender, salary, education, and job role; enabled HR to pinpoint retention risks and implement data-driven strategies.
- **Skills:** Power BI, Power Query, Data Visualization, Data Analysis.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL, HTML/CSS
- **Tools & Platforms:** Excel, Power BI, Streamlit, LangChain
- **Libraries & Frameworks:** pandas, NumPy, Matplotlib, Seaborn, scikit-learn, TensorFlow (basic), ETL/ELT, Data Warehousing, Feature Stores
- **Database Technologies:** MySQL
- **Specializations:** Machine Learning, Data Analysis, Generative AI (Azure OpenAI), REST APIs (FastAPI), Natural Language Processing, Large Language Models

ACHIEVEMENTS

- **Competitive Programming:** Solved more than 200 problems on LeetCode and GeeksforGeeks.

CERTIFICATIONS

- **SQL Programming** - *LinkedIn*
- **Generative AI** - *IBM*
- **Generative AI with Azure OpenAI** - *Udemy*
- **HTML, CSS, and JavaScript for Web Developers** - *Coursera*
- **Modeling and Analytics for Supply Chain Management** - *NPTEL*
