

VINIT KUMAR
B.Tech. - Computer Science & Engineering
Ph: +91-7992178893
Email: vinitkumar88930@gmail.com
Bhagalpur, Bihar, India - 812004

BRIEF SUMMARY

I am a motivated Graduate Engineering Trainee with a strong foundation in computer science and AI-driven technologies. I have hands-on experience in building backend systems, working with APIs, and developing AI-powered applications using tools like Python, LangChain, and LLMs. I am eager to learn, adaptable to fast-paced environments, and focused on solving real-world problems with technology.

KEY EXPERTISE

Programming Languages: Java Python C++ (basic) • Data Analysis: SQL Python • Data Visualization: Excel Power BI
Google Looker Studio • Libraries & Frameworks: pandas NumPy Matplotlib Seaborn scikit-learn TensorFlow (basic)
LangChain CSS • Data Engineering Concepts: ETL/ELT Data Warehousing • Specializations: Machine Learning
Data Analysis Generative AI (Azure OpenAI) REST APIs (FastAPI) Natural Language Processing
Large Language Models (LLMs) AWS Certified Cloud Practitioner • Soft Skills: Team collaboration time management
problem-solving and analytical thinking adaptability and willingness to learn communication agile workflow

EDUCATION

Vellore Institute of Technology - Vellore B.Tech. - Computer Science & Engineering CGPA: 7.74 / 10	2022 - 2026
KENDRIYA VIDYALAYA BAMBOLIM CAMP 12 th CBSE Percentage: 74.60 / 100	2022
KENDRIYA VIDYALAYA BAMBOLIM CAMP 10 th CBSE Percentage: 78.20 / 100	2020

PROJECTS

LLM Q&A System for AtliQ Tees Key Skills: LLMs LangChain Hugging Face Google gemini MySQL Streamlit Vector Search ChromaDB NLP. Project Link: https://github.com/vinit470/AtliQ-Tees-Talk-to-a-Database Built a natural language Q&A system over business data stored in MySQL using Google gemini, Hugging Face embeddings, LangChain, and ChromaDB. • Designed the UI in Streamlit and implemented few-shot learning to improve query accuracy and user experience, automating analytics for store managers. • Skills: LLMs, LangChain, Hugging Face, Google gemini, MySQL, Streamlit, Vector Search, ChromaDB, NLP.	09 Sep, 2025 - 30 Sep, 2025
HR Analytics Dashboard Key Skills: Power BI, Power Query, Data Visualization, Data Analysis. Project Link: https://github.com/vinit470/HR_analytics_dashboard Developed an interactive HR analytics dashboard to visualize and analyze employee attrition for a 1,417 employee organization using Power BI, Power Query, and DAX. • Identified key attrition trends by age group, gender, salary, education, and job role, enabling HR to pinpoint retention risks and implement data-driven strategies.	

ASSESSMENTS / CERTIFICATIONS

AWS Certified Cloud Practitioner Key Skills: Cloud Computing AWS	18 Jan, 2029
